Summary

I'm experienced in managing teams or working on solo projects with a high degree of complexity and delivering quality, using Scrum and XP. Strong track record of simplifying what is difficult and delivering results. I thrive in autonomous and creative environments, building a culture of fun, candor, and a bias for action.

Experience includes:

- * PaaS / SaaS (.NET/C#, Java, JavaScript/NodeJS)
- * Web sites
- * Architecture: DevOps, SOA, API design, work on standardization, built several re-utilizable components and frameworks.
- * Cloud-based, highly scalable architectures (Azure)
- * Dev Tools: Jira (with Greenhopper), TeamCity, Jenkins, Checkmarx Sonar, Crucible, Bitbucket
